

Summary of service provider complaint report

Eastern Aged

2020-21

Introduction

Purpose

The purpose of this summary presentation is to showcase key data for complaints to the MHCC and complaints and compliments directly to your service, largely focusing on the 2020-21 reporting year.

This summary outlines a range of complaints and compliments statistics, including who complainants are, what issues are raised, and how the complaints are resolved.

Interpreting the data

Caution should be used when drawing conclusions from relative numbers of complaints reported by services.

High numbers of complaints reported by services may represent effective complaints reporting processes, a positive complaints culture and/or demonstrate high numbers of issues experienced by people who use the service.

Conversely, low numbers of complaints may indicate issues with the recording of complaints or the service's approach to complaints, or a high level of satisfaction with the service.

Complaints represent people's experience, and a sign of a positive complaints culture would be higher numbers of complaints to services and lower number of complaints to the MHCC, reflecting that people feel confident to raise their concerns with the service.

The role of the MHCC

The MHCC collates and analyses complaints data about public mental health services to:

identify key themes and emerging issues across the sector

gain insights into the concerns/experiences of consumers, families and carers

increase awareness of systemic issues and improvement opportunities

understand the status of complaint processes and reporting across the sector

inform our projects and recommendations

Number of complaints and compliments

Complaints to MHCC
about Eastern Aged

16

Complaints to
Eastern Aged

- The number of complaints to the MHCC about Eastern Aged decreased while the number of complaints to Eastern Aged directly remained the same in 2020-21.
- Overall, more complaints were made directly to Eastern Aged than to the MHCC. The MHCC is pleased to see a trend of more complaints being made directly to the service, as this suggests that consumers and family members/carers feel empowered to raise concerns directly with the service.

Complaint and compliment rates

2020-21

- Sector medians instead of averages are shown, as the majority of services have relatively lower rates of complaints and compliments, with fewer services having higher rates of complaints and compliments. Half of all services have complaint and compliment rates below the sector median.
- Compared to the sector, a slightly lower rate of complaints was made to the MHCC about Eastern Aged, and a higher rate of complaints was made directly to the service.
- A similar rate of compliments was made to Eastern Aged compared to the sector.

Complaints about Eastern Aged

- to the MHCC (n=4)
- to the service (n=16)

Compliments to Eastern Aged (n=16)

Sector-wide complaints

- to the MHCC (n=49)
- to the service (n=60)

Compliments to services sector-wide (n=126)

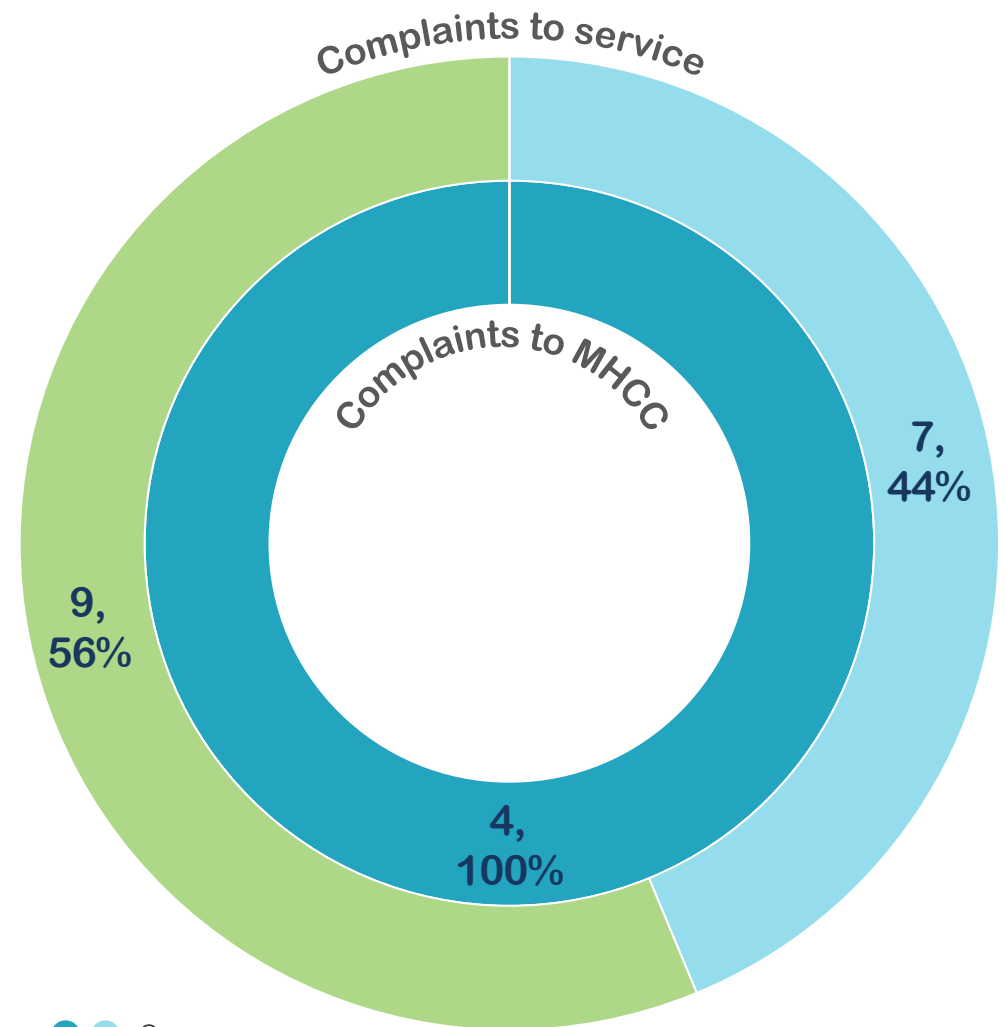

*Note: not all services reported compliments, and services likely used different approaches to capture compliments data

Who is making complaints? 2020-21
